Alex Morgan

Full-Stack Developer · alex.morgan@example.com · +1 (555) 012-3456 · Bengaluru, India · github.com/alexmorgan-demo

SUMMARY

Full-stack developer with 3 years of experience building web applications with React, Node.js and PostgreSQL. Comfortable owning features end to end, from REST API design to responsive UI. Looking to grow into cloud infrastructure and system design.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS

Frontend: React, Redux, Tailwind CSS, Vite

Backend: Node.js, Express.js, REST APIs, JWT authentication

Databases: PostgreSQL, MongoDB, Redis (basic)

Tools: Git, GitHub Actions, Docker (basic), Postman, Jest

EXPERIENCE

Software Engineer — BrightCart Technologies (fictional) **Jul 2023 – Present**

Bengaluru, India

- Built and maintained 25+ REST endpoints in Node.js/Express for an e-commerce platform serving 50k monthly users.
- Rewrote the checkout flow in React with Redux, cutting cart abandonment by 12%.
- Optimised slow PostgreSQL queries with indexes and query rewrites, reducing p95 API latency from 900 ms to 250 ms.
- Added Jest unit and integration tests, raising backend coverage from 35% to 70%.

Junior Web Developer — PixelNest Studio (fictional) **Jan 2022 – Jun 2023**

Remote

- Developed responsive marketing sites and admin dashboards for 10+ clients using React and Tailwind CSS.
- Integrated third-party APIs (payments, maps, email) and built a reusable form component library.
- Set up GitHub Actions CI pipelines for linting and automated tests.

PROJECTS

- **TaskFlow** — Real-time Kanban board built with React, Node.js, Socket.IO and MongoDB; supports drag-and-drop and live collaboration.
- **QuickNotes API** — Secure notes REST API with JWT auth, bcrypt password hashing and role-based access, deployed with Docker.

EDUCATION

B.Tech in Computer Science — Example Institute of Technology (fictional) **2018 – 2022**

CGPA: 8.1 / 10

CERTIFICATIONS

- JavaScript Algorithms and Data Structures — freeCodeCamp
- Responsive Web Design — freeCodeCamp
